1. INTRODUCTION

Over the past two years the Nez Perce National Forest and the Clearwater National Forest have embarked on a process to combine the two forests. One major component of this process is the combination of the recreation programs for both forests. This process includes combining the management of all developed sites across the two forests. The forests do have many users in common and both forests have a large percentage of their recreation use either along river corridors or in remote backcountry areas. Both forests had similar niche descriptions that were developed during the first round of the RFA, which has eased the combination of the two programs.

This document is a living, working road map to guide the Forest in providing a quality, sustainable recreation program and in combining the forest programs in the most effective and efficient way. It describes the vision for the overall Forest recreation program and outlines proposals specific to individual developed recreation sites. The goal of this process is to develop a sustainable recreation program that will allow the Forests to provide high quality recreation opportunities while operating in a period of declining budgets.

The proposals and guidance contained in this document were developed through, and are the end result of, the national Recreation Facilities Analysis (RFA) process. Existing and projected visitor demands, recreation program niche, resource conditions, links to the community, program costs, and revenue were all considered in developing proposals.

This document will serve as a framework from which the Forest will prioritize investments, determine ways to improve sustainable operations and pursue changes in development of recreation sites. Proposals are wholly consistent with the Northern Region's "Recreation Strategy" and the Clearwater and Nez Perce Forest Land and Resource Management Plan. This information will also be used in development of the Nez Perce – Clearwater National Forests Plan currently being developed.

The Forest received many comments from the public during this planning process, which were used to refine the final Program of Work. The Forest recognizes that site-specific analysis and public involvement may be necessary prior to implementing some of the proposals contained in this document. As implementation of site-specific proposals are considered, they will be evaluated to determine if they are subject to the National Environmental Policy Act (NEPA) and all required procedures shall be executed.

The Forest also recognizes that proposals relating to fees will require consistency with criteria outlined in the Recreation Enhancement Act (REA) and coordination with the appropriate Recreation Resource Advisory Committee (RRAC).

2. SUMMARY - Programmatic Effects Of Implementation

A. BRIEF DESCRIPTION OF PROCESS

The purpose of the Recreation Facility Analysis process is to display the tasks needed over the next 5 years to bring the Forest's recreation infrastructure into alignment with the resources available to operate and maintain it to standard. Many of our facilities were built 30-50 years ago and have reached the end of their useful life without significant deferred maintenance investment. Other facilities receive no or little use, and no longer serve the demand that existed 30-50 years ago. The fundamental premise of the program of work is to create an inventory which is sufficiently sustainable and flexible to be adapted annually to any changes in available resources. The program of work has been developed to meet the following objectives:

- Operate and maintain sites to standard within available revenue stream.
- Reduce deferred maintenance by 20% over the 5 year life of the program of work.
- Focus available resources on sites which conform most closely to the Forest Recreation Program Niche.
- Maintain and enhance customer satisfaction with available sites.

The RFA process defines the proposed actions for management of forest recreation sites in order to meet the desired future condition that aligns with the Forest Plan. For purposes of the analysis and planning for future proposed actions, four categories (A-D) of proposed management are used. These categories are:

- 1) Category A: sites that are under some type of operational or contractual agreement whose terms are longer than the 5-year period of the RFA.
- 2) Category B: sites that meet the unit niche; are environmentally sustainable within the capability and capacity of the natural resources; are supported by and provide support to local communities; and have a sustainable management cost-benefit ratio.
- 3) Category C: sites that do not meet all of the above criteria, but with a combination of mitigation, additional resources, or other type of action could be made to qualify for Category B status.
- 4) Category D: sites that do not meet all of the (Category B) criteria; or fall sufficiently short in one or more of the criterion so as to render the capability of meeting it unsustainable.

Sites were evaluated and ranked based on conformance to the forest niche and amount of recreation use (35%), financial efficiency (35%), and environmental and community sustainability (30%).

Some sites were identified as non-discretionary based primarily on existing agreements

B. FOREST RECREATION NICHE

2013 Combined Forests Niche Statement (for coming decade)

Where Wild Country Meets Wild Rivers

Wilderness and whitewater offer visitors an escape to quiet, remote natural surroundings. In Nez Perce and Clearwater National Forests you can take an hour, a day or even a week to immerse yourself in the big wild. Friends and family can gather to relax, ride, hike, camp and enjoy the scenery. Blue Ribbon fisheries lure anglers, backcountry hunting, pack trails and scenic vistas draw visitors to this rich country. Traditional homeland of the Nez Perce Tribe, its history, culture and knowledge are integral values. Stories of early settlement, mining and Forest Service history are told in romantic settings of historic sites and travelways.

Forest-wide Settings, Special Places, and Values:

The landscapes of the Nez Perce and Clearwater National Forests begin in the jagged peaks of the Bitterroot Mountains and flow to the deep canyons of the Salmon, Selway and Lochsa Rivers. Broad coniferous forests cover the mountains that stretch from the rolling hills of the Palouse Plateau to the Camas Prairie. Many wildlife and fish species also call this forest home; including big game animals like the elk, deer and moose; high flyers like the bald eagle and the osprey; and anadromous fish species Chinook salmon and steelhead trout. Here, visitors can enjoy a slower pace and uncrowded spaces while learning about nature and the rich human history of the Nez Perce people, early settlement, gold mining and other occupations. For the more adventurous, the untrammelled land of the wilderness provides recreation opportunities while preserving natural landscapes now and into the future..

Wilderness Expedition and Remote Backcountry – The Selway Bitterroot, Gospel Hump, Hells Canyon and Franck Church River of No Return Wilderness areas offer remote, wild settings for camping, hiking, packing and hunting. The Mallard Larkins Pioneer Area and the Great Burn also provide vast areas of non-motorized back country with opportunities for solitude, self-reliance and a sense of freedom found in few other places.

Wild River Corridors – Wild and Scenic Salmon, Selway and Lochsa Rivers provide high quality river recreation experiences for both remote and motorized use. Meandering Red River, the broad and deep North Fork of the Clearwater or any of the rivers large and small found here provide unlimited river recreation opportunities.

Land to Roam and Hide – Large, relatively undeveloped country offers visitors thousands of miles of designated roads and trails to drive, ride, hike, or pack on. Historic ridgeline corridors along the Lolo Trail and McGruder Corridor trace the paths of the Nez Perce, Lewis and Clark and early traders. These large backcountry areas offer adventure, challenge and opportunities to spend days exploring without ever following the same route twice.

Convenient Connections – Areas closer to home can be found that provide connections to nature for local visitors. Many day use, overnight sites and scenic drives are available within minutes of many small communities. Here, locals can conveniently escape the daily grind, and enjoy the abundant river and mountain recreational opportunities and the rest and relaxation they provide.

Forest-wide Activities/Opportunities/Experiences: Across the Nez Perce and Clearwater National Forests nature provides an extraordinary scenic back drop for day use, overnight camping, hiking, big game hunting, fishing and boating. Outdoor activities happen year round, with snowmobiling and cross country skiing rounding out the year. Visitors can travel extensive scenic byways, visit interpretive and educational sites that reveal the rich history of the region, reach areas of the backcountry on foot or in a vehicle and view wildlife in their natural surroundings. Outfitters and guides and other private partners also offer quality recreation experiences for users who may require help with skills and equipment.

Wilderness Expedition and Remote Backcountry – Activities include backpacking and stock use on an extensive system of trails. Typical stays are multi-day expeditions that may include the use of back-country air strips and primitive camping.

Wild River Corridors – Hiking, horse packing, fishing, hunting, primitive and developed camping, motorized use on designated routes and overnight stays in historic cabins are popular in this setting.

Land to Roam and Hide – Hiking, horse packing, fishing, hunting, primitive and developed camping, motorized use on designated routes and overnight stays in historic cabins are popular in this setting.

Convenient Connections – These forests offer hiking, horseback riding as well as motorized riding on designated routes. Overnight stays in historic cabins as well as campground accommodating larger RVs are also available. Access to rivers for fishing, floating and dispersed camping is plentiful. Viewing scenery, picnicking, and informational sites for day use are popular. Winter sports are enjoyed on groomed trails or in areas of self-exploration.

Primary Visitors

Inland Empire Locals	Communities contiguous to the Forest within 120 miles.
Regional	Communities within 250 miles; holiday users, fishing, camping, OHV, Boise, Oregon, Washington
National	Over 250 miles: Hunting, fishing, river running, fly in to remote airstrips, often outfitted guests.
International	Destination visitors to Wild and Scenic Rivers and Wilderness Areas; often outfitted guests.

Nez Perce - Clearwater NFs Niche Bridge for Developed Recreation

Niche Emphasis: **Wild & remote. Visitors come to ride, hike, camp, relax, and enjoy the scenery.**

Question #1

SETTING NAMES:		Wilderness Expedition & Remote Backcountry		Wild River Corridors		Land to Roam and Hide		Convenient Connections	
SETTING PRIORITY: Which setting(s) best support recreation sites? <i>Question #2</i>		Low		High		Moderate		High	
SITE FUNCTION AND THEME: How sites are designed & managed to best meet the Niche <i>Question #3</i>		Access to the forest, little or no amenities		Facilitates river use and protection of the resource. Sites that accommodate higher densities of visitors.		Camping with few amenities, trailheads & river access that meet resource protection needs. Conservation education information at key staging areas and concentrated use areas.		Sites that accommodate higher densities of visitors. Hardening of sites to protect the resource and to direct the visitors. Interpretation and Education for the history buff and new Forest visitor.	
KEY ACTIVITIES: In support of the Niche for the coming decade <i>Question #4</i> Riding = Horse, ATV, Snowmobile, Car, 4-wheel drive, Rafting, Kayaking, etc.		Low or no amenity camping, hiking, viewing scenery & wildlife, fishing, hunting, backpacking, pack & saddle horse use.		Driving for pleasure, hiking, viewing scenery and wildlife, fishing, rafting, jet boating, interpretation and education, camping, multi-day excursions.		Low or no amenity camping, hiking, viewing scenery & wildlife, fishing, hunting, OHV use on designated routes, rental cabin opportunity, conservation education (i/e).		Driving for pleasure, camping, hiking, viewing scenery & wildlife, fishing, boating, and hunting, OHV riding on designated routes, recreational gold mining, rental cabin opportunities, interpretation & education, snowmobiling and cross country skiing.	
INFRASTRUCTURE	SITE TYPE AND DEVELOPMENT SCALE Needed to provide key activities <i>Question #5</i> <i>Question #6</i> (Sites will be the lowest Dev Scale possible to maintain visitor experience & protect the resource)	Site Type	Dev Scale	Site Type	Dev Scale	Site Type	Dev Scale	Site Type	Dev Scale
		Trailheads (if applicable)	1	Campgrounds near water	2-5	Trailheads	1-2	Trailheads	2-3
		Camping Area	0-1	Boat Launches	2-5	Campgrounds	2-4	Winter Trailheads	2-3
		Rental Cabins	3-4	Interpretive sites	2-5	Boat Launches	1-2	Campgrounds	2-5
				Rental Cabins	3-4	Interpretive Sites	1-2	Boat Launches	2-3
				Trailheads	2-4	Rental Cabins	3-4	Interpretive Sites	2-5
							Rental Cabins	3-4	
	SITE CAPACITY Low <50 PAOT Medium 50–100 PAOT High >100 PAOT <i>Question #6</i>		Low less than 50 PAOT		Medium – High 50 PAOT or more		Low less than 50 PAOT		Medium - High 50 PAOT or more

*** - Development Scale** The classification of the scale of development of recreation sites. Scale ranges from 0, “No Site Modification” to 5, “Extensive Site Modification”. Development scales are defined by levels of site modifications, type of construction materials used, management controls, design style, development density, and services.
(See APPENDIX A).

C. CRITICAL MONETARY FACTORS

This matrix displays asset and expense information for the Forest Recreation Sites program before and after 5-year Program of Work development.

NEZ PERCE - CLEARWATER National Forests

	ANNUAL O&M COST PER PAOT DAY	\$ 0.46	\$ 0.44	-5%
	ANNUAL NET O&M COST PER VISIT	\$ 2.74	\$ 2.04	-26%

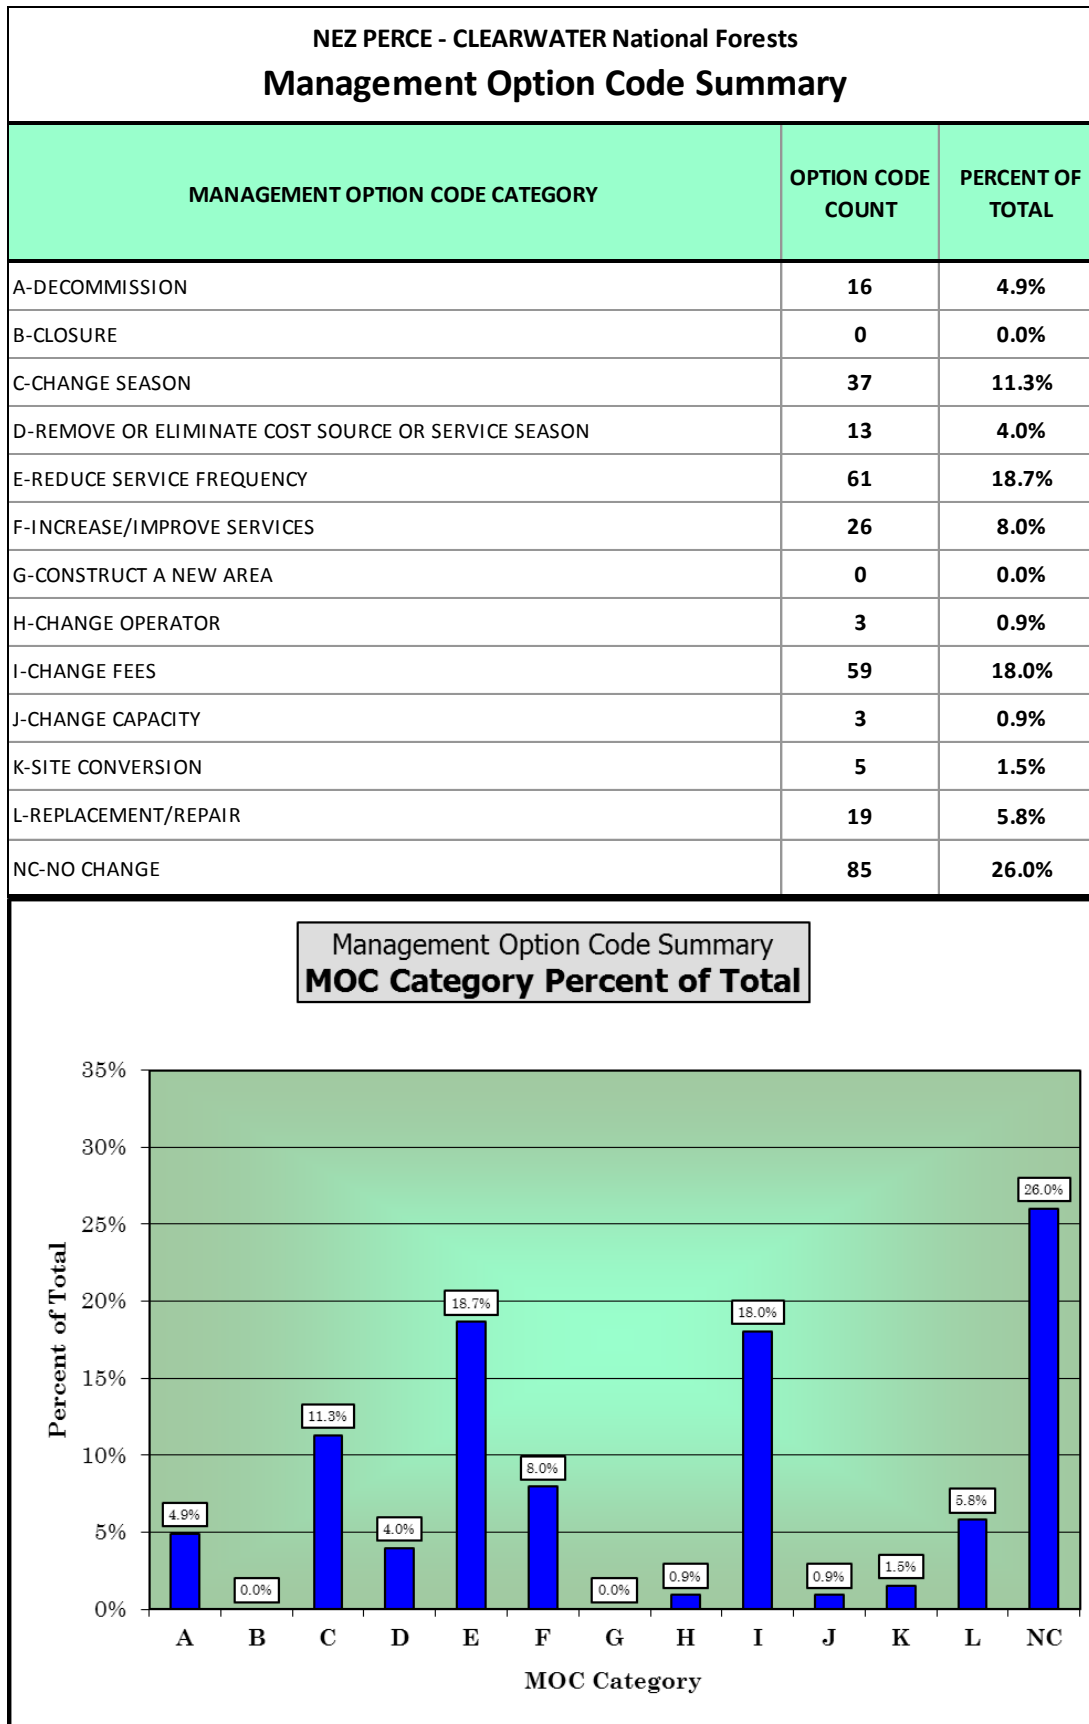

C2.	PROGRAMMATIC RESULTS	BASILINE CONDITION (Benchmark Data)	PROGRAM OF WORK - CHANGED CONDITION (does not include CATEGORY D sites)	Program of Work - PERCENT CHANGE (does not include CATEGORY D sites)
	TOTAL DEFERRED MAINTENANCE	\$ 1,061,535	\$ 1,017,338	-4%

Annual O&M Cost per visit and per PAOT day are a summation of ALL the 95 recreation facilities on the Forest; the cost per visit and PAOT for each site type will vary.

PAOT - An acronym for Persons-At-One-Time; a measure of recreation site designed recreation carrying capacity. National conventions include 5 persons per family picnic/camp unit, 3.5 persons per parking lot stall at a trailhead or visitor center, 1.5 persons per motorcycle parking stall and 40 persons per tour bus parking stall.

O&M - Operations and maintenance; includes the activities and resources required to annually operate and maintain recreation sites at a level of quality which meets their management objectives and customer satisfaction. Costs associated with O&M are generally recurrent, as opposed to capital investment costs that are generally one-time and non-recurrent.

F. PROPOSED MANAGEMENT ACTION SUMMARY

3. RECREATION SITES PRIORITY RANKING REPORT

The Forest's Recreation Sites Priority Ranking Report lists recreation sites in rank score priority order. The report includes site type, site rank score, and site tier category, planned management season, and planned site capacity.

MNG ORG – Managing Organization Number; first number denotes the Region, the next two numbers the Forest, and the last two numbers the Ranger District.

EX: 1 = Northern Region (Region 1)
05 = Clearwater National Forest
02 = Palouse Ranger District
03 = North Fork Ranger District
05 = Lochsa Ranger District
06 = Powell Ranger District

EX: 1 = Northern Region (Region 1)
17 = Nez Perce National Forest
01 = Salmon River Ranger District
04 = Clearwater Ranger District
05 = Elk City Ranger District
06 = Red River Ranger District
07 = Moose Creek Ranger District

4. TABLE OF TASKS

A. SITE-SPECIFIC TASKS

The Site-Specific Tasks table lists tasks (Management Option Codes), one-time cost to implement and pertinent documentation for each recreation site. Only sites with proposed management changes are listed.

NEZ PERCE - CLEARWATER National Forests	\$756,920	RECOMMENDED MAXIMUM ONE-TIME COST TO IMPLEMENT TASKS
	\$36,500	TOTAL ONE-TIME COST TO IMPLEMENT TASKS

B. PROGRAMMATIC ACTIONS

NEZ PERCE - CLEARWATER National Forests

[Return to TOC](#)

**8b. INFO ENTRY: 5-Year Proposed Program of
Work - Programmatic Actions**

[Previous Worksheet](#)

[Next Worksheet](#)

ACTION	LEAD	TIME FRAME
<u>Improve Marketing</u>		
1 - Improve information provided for trip planning for the public. Expand what is offered on the web.		
2 - Provide multiple activities (package opportunities) for the public – could be provided by partners		
<u>Improve efficiencies</u>		
1 - Reduce point source for costs – ie reduce the number of public water systems where possible.		
2 - Reduce maintenance of facilities through use of higher quality products.		
3 - Prioritize decommissioning of constructed features at designated sites.		
4 - Evaluate garbage collection forest-wide.		

ACTION	LEAD	TIME FRAME
5 - Complete feasibility review of recreation rentals. Improve facilities or remove from the rental list where appropriate		
<u>Improve Facilities</u>		
1 - Develop corridor plans for Selway and South Fork Corridors		
2 - Apply for state grants to improve aging facilities to reduce maintenance costs.		
3 - Prioritize deferred maintenance projects across the forest.		
4 - Complete veg management plans for all sites and begin implementing changes. Work with nursery to establish a replacement cycle. Pursue native plant improvement funding for completing work		

Additional Definitions –

Investment priority (IP) – Type of ranking system that weights how closely a site matches the niche criteria and user needs to prioritize the need for capital improvement funding to reduce deferred maintenance. These alternative weights are focused on determining specifically which sites best respond to criteria aimed at identifying highest investment need.

RFA Priority - Rank and prioritize recreation sites based on niche conformance, environmental and financial sustainability, and degree of support provided to communities

Errata –

1 – Apgar Campground was accidentally left off of the Table of Ranked Sites page 12. With a RFA rank of 55 Apgar should be listed near the middle of the list.

2 – Several dispersed sites named NF246Rd were listed, but are already part of the Sheep Mountain Trailhead site. These are duplicates and will be corrected in the database as a result of this process. The costs and management actions associated with these sites will be deleted.

3 – Boulder Flat dispersed campsite is missing from the report. Management option code should be I3 and F12 w/ notes \$5 per vehicle fee with dates TBD Add fee tube, bulletin board and access controls.

4 - Page 8 - LHRS is not identified as Interpretive Visitor Center (minor) and should be listed under interpretive sites in all the reports.

5 - Page 25 Cedar Flats Dump Station change management option code to I3 with \$5 fee and one-time cost of \$1500 for installation of a fee tube.

5. APPENDIX

A. RECREATION SITE DEVELOPMENT SCALE GUIDE

Scale #	Definition
0	No site modification <ul style="list-style-type: none"> ○ No constructed improvements evident at the site ○ Little to no controls or regimentation ○ Primary access usually over primitive roads ○ Spacing informal and often established by user
1	Almost no site modification. <ul style="list-style-type: none"> ○ Rustic or rudimentary improvements designed for protection of the site rather than comfort of the users. ○ Use of synthetic materials excluded. ○ Minimum controls are subtle. ○ No obvious regimentation. ○ Primary access usually over primitive roads ○ Spacing informal and extended to minimize contacts between users.
2	Minimal site modification. <ul style="list-style-type: none"> ○ Rustic or rudimentary improvements designed primarily for protection of the site rather than the comfort of the users. ○ Use of synthetic materials avoided. ○ Minimum controls are subtle. ○ Little obvious regimentation. ○ Spacing informal and extended to minimize contacts between users. ○ Primary access usually over primitive roads. ○ Interpretive services informal, almost subliminal.
3	Moderate site modification. <ul style="list-style-type: none"> ○ Facilities about equal for protection of natural site and comfort of users. ○ Contemporary/rustic design of improvements is usually based on use of native materials. Inconspicuous vehicular traffic controls usually provided. ○ Roads may be hard surfaced and trails formalized. ○ Development density about 3 family units per acre. ○ Primary access may be over high standard roads. ○ Interpretive services informal if offered, but generally direct.
4	Heavy site modification. <ul style="list-style-type: none"> ○ Some facilities designed strictly for comfort and convenience of users. ○ Luxury facilities not provided. ○ Facility design may incorporate synthetic materials. ○ Extensive use of artificial surfacing of roads and trails. ○ Vehicular traffic control usually obvious. ○ Primary access usually over paved roads. ○ Development density 3-5 family units per acre. ○ Plant materials usually native. ○ Interpretive services, if offered, often formal or structured.
5	Extensive site modification. <ul style="list-style-type: none"> ○ Facilities mostly designed for comfort and convenience of users and usually include flush toilets; may include showers, bathhouses, laundry facilities, and electrical hookups. ○ Synthetic materials commonly used. ○ Formal walks or surfaced trails. ○ Regimentation of users is obvious. ○ Access usually by high-speed highways. ○ Development density 5 or more family units per acre. ○ Plant materials may be non-native. ○ Formal interpretive services usually available. Designs formalized and architecture may be contemporary. ○ Mowed lawns and clipped shrubs not unusual.

B. MANAGEMENT OPTION CODE LIST

A – DECOMMISSION [Capture decommissioning costs in 5-year Program of Work]

1. Decommission
 - i. As soon as practical
 - ii. Begin glide path
2. Partial Decommission (e.g., remove campsites next to boat ramp)

B - CLOSURE

1. Close – defer decommissioning
2. Partial Closure – defer decommissioning (e.g., close campsites next to boat ramp but don't remove yet)
3. Closure pending completion of site improvements

C - CHANGE SEASON [If a change, reflect in columns J or K, in worksheet 3, the change in operating days]

1. Increase season
2. Reduce season
3. Intermittent closure during season
4. Open weekends/holidays only
5. Open for hunting season only

D – REMOVE OR ELIMINATE A COST SOURCE or SERVICE SEASON [use Site task cost detail in Worksheet 2b of the Ranking Template]

1. Reduce mowed area
2. Remove trashcans
3. Remove restroom facilities
4. Remove tables and/or grills
5. Other changes to site design or features to reduce costs
- 6.
7. Other changes to eliminate on-site services
8. Close or remove water system
9. Close or remove waste water system

E - REDUCE SERVICE FREQUENCY SEASON [use Site task cost detail in Worksheet 2b of the Ranking Template] THESE CODES ARE RARELY USED AND REQUIRE SIGNIFICANT DOCUMENTATION

1. Reduce service – mow less frequent
2. Reduce service – trash and clean-up less frequent
3. Reduce service – restroom cleaning less frequent
4. Reduce service – staff presence reduced on site
5. Reduce service – less frequent bulletin board posting
- 6.
7. Reduce service – other

F – INCREASE/IMPROVE SERVICES [use applicable rates in Features section of Recreation Sites module in Infra]

1. Add electrical hook-ups
2. Increase amps of existing electrical hook-ups
3. Add water hook-ups
4. Add sewer hook-ups
5. Add hot showers
6. Upgrade existing feature (e.g., replace SST with flush toilets)
7. Add amenities (playground, swim area, etc)
8. Add a Host site(s)

9. Major reconstruction/upgrade of the recreation area
10. Increase staff presence (including law enforcement)
- 11.
12. Improve visitor information and bulletin boards
13. Improve signing
14. Add water delivery service to individual users
15. Add greywater/blackwater pumping service to individual users
16. Other
17. Add a toilet building(s)

G – CONSTRUCT A NEW AREA

1. Construct a new site

H – CHANGE OPERATOR or WORKFORCE

1. Change to a concession operation [**apply a 60% savings to O&M cost per operating day**]
2. Operate through a partner agreement (e.g., local community, State agency, etc)
3. Volunteer (increase use of volunteers at the site)
4. Contractor (begin or expand use of contracting)
5. Prison labor (begin or expand use of prison labor)
6. Other

I – CHANGE FEES

1. Eliminate fee
2. Reduce fee
3. Begin charging a fee
4. Increase current fee
5. Increase fee compliance efforts

J – CHANGE CAPACITY (PAOT) [If a change, reflect in columns S or T, in worksheet 3, the change in capacity]

1. Increase Capacity (Add a loop, build additional sites, add parking, etc)
2. Reduce Capacity (i.e., close a loop, remove camp units, eliminate a parking area, etc.)

K -- SITE CONVERSION

1. Change in Development Scale
2. Change in Site Type
3. Study feasibility of converting site from FA&O facility to recreation site

L – REPLACEMENT/REPAIR

1. Replacement of an existing constructed feature that results in the reduction of Deferred Maintenance
2. Repair of an existing constructed feature that results in the reduction of Deferred Maintenance.
3. Conversion of constructed features to meet accessibility standards.

NC – NO CHANGE (i.e., none of the above site specific changes apply)

1. No change – currently USFS operated
2. No change – currently concession operation
3. No change – currently operated by a partner under some other type of formal agreement

Note – A site can have more than one code

C. RECREATION SITE TYPE DEFINITIONS

SITE TYPE	DESCRIPTION
BOATING SITE	Site facilitates access to water for boating activities.
CAMPING AREA	Area used primarily for primitive recreational overnight use; minimal or no improvements; Development Scale 0, 1, or 2.
CAMPGROUND	Site developed to accommodate overnight use by individuals and families; Development Scale 2-5. Usually includes several designated camp units.
CLIMBING AREA	Area used primarily for rock climbing and rock climbing staging.
DAY USE AREA	Area used for primitive day use recreation activities where there is no dominant use or activity; minimal or no improvements. Dev Scale 0, 1 or 2.
DOCUMENTARY SITE	Historic sites, buildings, districts, or other features preserved for their cultural or historic values. Include only sites that have, or are eligible for, State and/or National register status. (If this type of site is not on the register or register eligible, use site type INTERPRETIVE SITE).
DUMP STATION	Site provides facilities for recreation vehicles to empty gray and black water holding tanks.
FISHING SITE	Site used for fishing and other related day use activities from a shoreline or a structure such as a dock.
GROUP CAMPGROUND	Site developed to accommodate overnight use by groups; Development Scale 2-5. Includes one or more designated group camp units.
GROUP PICNIC SITE	Site developed to accommodate picnicking and other related day-use activities by groups; Development Scale 2-5. Includes one or more designated group picnic units.
HORSE CAMP	Site developed to accommodate pack and riding stock and overnight use; Development Scale 2-5. Usually includes one or more designated camp units.
HOTEL, LODGE, RESORT	Hotels, lodges, motels, or similar structures designated for overnight use and the providing of comfort and convenience to visitors.
INFO SITE/FEE STATION	Site provides recreation information including maps, general orientation, directions, and regulations. Site may also be used as a contact point for collecting fees.
INTERPRETIVE SITE (ADMIN)	Site that includes those portions of administrative sites and offices that have been modified to provide interpretive programs and/or interpretive displays.
INTERPRETIVE SITE	Site provides a range of interpretive exhibits and/or programs. Typically unstaffed and doesn't include a visitor center building (see VISITOR CENTER, MAJOR; VISITOR CENTER, MINOR). Site features typically can include interpretive waysides, and kiosks.
INTERPRETIVE VISITOR CENTER (MINOR)	Site provides a range of interpretive programs, services and facilities. Includes a building or buildings currently used as an interpretive visitor center. Site has interpretive exhibits and may have interpretive audio-visual and live programs. Site may have permanent staff, but typically is staffed on a seasonal basis. Replacement value of improvements is less than \$2,000,000.

SITE TYPE	DESCRIPTION
INTERPRETIVE VISITOR CENTER (MAJOR)	Nationally defined list of Forest Service-owned regionally or nationally significant destination sites. Site includes major visitor center building, with interpretive exhibits and interpretive audio-visual and live programs. Has associated amphitheatre, interpretive trails and other features. Permanent year-round interpretive and maintenance staff. Replacement value of improvements (based on original investment cost) is greater than \$2,000,000.
LOOKOUT/CABIN	Look-out towers, cabins, guard stations, or other past/present administrative accommodations designated for overnight public use.
OBSERVATION SITE	Site facilitates visitors viewing scenery or viewing specific forest-related activities.
OHV STAGING AREA	Site or area used for staging off-highway vehicle activities including motorcycling, three-wheeling, four-wheeling and other motorized modes of recreation transportation.
ORGANIZATION SITE	Site designated to provide programmed recreation activities by organized groups.
OTHER RECREATION CONCESSION SITE	Concession-operated site not covered by other site type definitions. Sites typically provide for the comfort and convenience of visitors and are typically operated by commercial operators under permit. Includes service stations, cafes, stores, rentals, restaurants, or cafeterias not a part of a unified hotel, lodge, or resort operation.
PICNIC SITE	Site developed to accommodate picnicking and other related day-use activities by individuals or families; Development Scale 2-5. Usually includes one or more designated individual picnic units.
RECREATION RESIDENCE	A privately built and owned residential structure authorized under special use permit.
SKI AREA ALPINE	Site used for downhill skiing. Sites are typically operated under special-use permit and usually include groomed ski runs, uphill transfer devices, sanitary facilities and provisions for public safety.
SKI AREA NORDIC	Site used for Nordic skiing. Sites are typically operated under special-use permit and usually include groomed ski trails, sanitary facilities and provisions for public safety.
SNOWPARK	Site provides staging for winter recreation activities including cross-country skiing, snowmobiling, and other winter modes of recreation transportation.
SNOWPLAY AREA	Area used as a play area for snow activities such as sledding and tubing.
SPECIALIZED SPORT SITE	Site accommodates specific recreation activities and usually located near population centers, developed under permit, and operated by others. Typical examples are city or county parks, playgrounds, golf courses, fairgrounds, moto-cross areas, and hang-gliding sites.
SWIMMING SITE	Site used for swimming activities.
TARGET RANGE	Site developed to accommodate controlled firearm and archery target practice activities; Development Scale 2-5.
TRAILHEAD	Site facilitates staging for trail use. (If primary purpose of trailhead is to access or provide interpretive experience, class the site as type INTERPRETIVE SITE.)
WILDLIFE VIEWING SITE	An observation site that provides the opportunity to view wildlife. May include parking lot, toilet, trails and interpretive displays.
